INTERNSHIP EXPERIENCE

Artificial Intelligence Algorithm Intern Changsha, Hunan, China
Ascend LLM team, Hunan Kunpeng Ecological Innovation Research Center *Jan 2025 – Mar 2025*

1) Host technical workshops on Diffusers framework practices and reinforcement learning in Ascend LLM team, covering stable diffusion, distributed training, LoRA fine-tuning, custom pipeline development, post-training techniques like group relative policy optimization(GRPO) algorithm.
2) Implemented tiled matrix computation and online softmax to avoid the deployment of full attention matrix, reducing GPU memory usage by 45% with same accuracy.
